# CARMAX CERTIFIED INSPECTION REPORT

### **VEHICLE DETAILS**

VIN WBSKG9C56DJ594439	Stock Number <u>15986335</u>
Year <u>2013</u> Make <u>BMW</u>	
Model M3	Mileage <u>62,688</u>
Date Inspected _09/20/2018	
Location of Inspection [Store Number, Store Name] 7159, CA	ARMAX - MODESTO
Every car undergoes the following inspection as part of CarMax's c safety recalls. Check www.nhtsa.gov/recalls to learn if this vehicle mechanical systems checked and, if needed or equipped, serviced. additional work may have been performed as needed during the recaffiliated with any original equipment manufacturer (OEM) or other any representation that this vehicle has never been in an accident of the state of the st	has an unrepaired safety recall. This list encompasses the major However, not all items inspected or serviced are included and conditioning process. The CarMax certification program is not third party, Non-DEM parts may be used. CarMax does not make
GENERAL REQUIREMENTS	COSMETIC INSPECTION
AutoCheck® Vehicle History Report (AutoCheck® is accessed on every vehicle and if certain conditions are shown, the vehicle will not be eligible for retail sale)  Structural Inspection (no structural damage found)  VIN Inspection (VIN plate on dash is visible; no signs of tampering)  Flood Inspection (no flood damage found)  Odometer Inspection (odometer reading in miles; no signs of tampering)	□ X □ Carpet (clean, no excessive wear or damage)   □ X □ Floor Mats (clean, no excessive wear or damage)   □ X □ Seat Upholstery (clean, no excessive wear or damage)   □ X □ Interior Surfaces (clean, no excessive wear or damage)   □ X □ Headliner (clean, no excessive wear or damage)   □ X □ Exterior Body/Windows (washed and waxed; free of bugs, oil, tar)   □ X □ Wheels/Hubcaps (clean, no excessive wear or damage)

Reprint #: 1 DMS Tracking #: 1915642

# **MECHANICAL INSPECTION**

Engine		Steering S	System
	Engine Oil and Filter (replaced)	$\boxtimes$ $\square$	Tie Rods (free of tears, bends, leaks, looseness,
	Engine Air Filter (clean, free of debris)		abnormal sounds)
	Vacuum Hoses & Lines (free of leaks and noises)	$\boxtimes \square \square$	Steering Gear/Rack & Pinion (free of tears, bends,
	Exhaust System (free of excessive noise, leaks, rust)		leaks, looseness, abnormal sounds)
	Engine Mounts (free of excessive cracks, rips, tears)	$\square$	Steering Linkage (free of bends, looseness,
	Oil Leaks (confirm no oil leaks present)		abnormal sounds)
	Engine Belts (free of tears and excessive noise)	$\square$	Power Steering Pump/Motor (free of leaks; steering
	Head Gasket (free of leaks)		wheel turns smoothly)
	Emission Controls (no check engine	$\square$	Steering Hoses, Lines & Wires (free of cracks,
	light illuminated)		swelling, leaks)
	Electric Drive Motor (operational)		Shaft & Couplings (free of bends, looseness,
	Licotino Billo Moto. (operational)		abnormal sounds)
Cooling Sy	stem		Alignment (no excessive pulling; steering
	Radiator Condition (free of leaks and cracks)		wheel centered)
	Radiator Cap (free of leaks, holds pressure)		Wilder deliterery
	Radiator Hoses (free of cracks, swelling, leaking)	Heating a	ind A/C System
	Heater Hoses (free of cracks, swelling, leaking)		Compressor/Clutch (free of cracks, leaks,
	Cooling Fan (operational)		excessive noise)
	Overflow Tank (free of leaks)		Condenser (free of leaks)
	Water Pump (operational, free of leaks)		Evaporator (free of leaks)
====			AC Hoses & Lines (free of cracks, swelling, leaking)
	Temperature Gauge (test drive shows operational)		Temperature/Blower Control Assembly (temperature,
		$[X] \square \square$	Lettibetaffite allower country vascurary (remperatore)
The second second second			for arred yest calcotion energte correctly)
Fuel Syste			fan speed, vent selection operate correctly)
	Fuel Tank (free of perforating rust, leaks)		fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible
	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks)		fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible under dash)
	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks) Fuel Pump (test drive shows correct operation)		fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible
	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks)		fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible under dash) Rear AC (operates correctly)
	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks) Fuel Pump (test drive shows correct operation) Gas Cap (free of leaks)	☐ ☐ ☒	fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible under dash) Rear AC (operates correctly)  System

	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks) Fuel Pump (test drive shows correct operation) Gas Cap (free of leaks)  sion and Drivetrain Universal Joints/Drive Shaft (free of tears, bends, leaks, looseness, abnormal sounds and vibrations) Axle/Differential (free of tears, bends, leaks, looseness, abnormal sounds and vibrations) Transmission Fluid (confirm no transmission fluid leaks present) Transmission Mounts (free of excessive cracks, rips, tears) Transmission Lines & Hoses (free of cracks, swelling, leaks) 4WD/AWD (operates correctly, free of abnormal	Lighting	fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible under dash) Rear AC (operates correctly)  System Exterior Lights (operates correctly) Brake Light Assembly (free of cracks, excessive moisture; illuminates correctly) Turn Signal Lever (illuminates turn signals correctly) Interior Lights (operates correctly) Hazard Light Button/Switch (illuminates hazard lights correctly) Headlights Assembly (free of cracks, excessive moisture; illuminates correctly) Rear License Plate Light Assembly (free of cracks, excessive moisture; illuminates correctly) Interior Dome Light Assemblies (illuminates dome
Transmiss	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks) Fuel Pump (test drive shows correct operation) Gas Cap (free of leaks)  sion and Drivetrain Universal Joints/Drive Shaft (free of tears, bends, leaks, looseness, abnormal sounds and vibrations) Axle/Differential (free of tears, bends, leaks, looseness, abnormal sounds and vibrations) Transmission Fluid (confirm no transmission fluid leaks present) Transmission Mounts (free of excessive cracks, rips, tears) Transmission Lines & Hoses (free of cracks, swelling, leaks) 4WD/AWD (operates correctly, free of abnormal sounds and vibrations)	Lighting	fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible under dash) Rear AC (operates correctly)  System Exterior Lights (operates correctly) Brake Light Assembly (free of cracks, excessive moisture; illuminates correctly) Turn Signal Lever (illuminates turn signals correctly) Interior Lights (operates correctly) Hazard Light Button/Switch (illuminates hazard lights correctly) Headlights Assembly (free of cracks, excessive moisture; illuminates correctly) Rear License Plate Light Assembly (free of cracks, excessive moisture; illuminates correctly) Interior Dome Light Assemblies (illuminates dome lights correctly)
Transmiss  X	Fuel Tank (free of perforating rust, leaks) Fuel Lines & Hoses (free of cracks, swelling, leaks) Fuel Pump (test drive shows correct operation) Gas Cap (free of leaks)  sion and Drivetrain Universal Joints/Drive Shaft (free of tears, bends, leaks, looseness, abnormal sounds and vibrations) Axle/Differential (free of tears, bends, leaks, looseness, abnormal sounds and vibrations) Transmission Fluid (confirm no transmission fluid leaks present) Transmission Mounts (free of excessive cracks, rips, tears) Transmission Lines & Hoses (free of cracks, swelling, leaks) 4WD/AWD (operates correctly, free of abnormal sounds and vibrations) Manual Transmission (shifts correctly, free of	Lighting	fan speed, vent selection operate correctly) Heater Core (no water / coolant leaks visible under dash) Rear AC (operates correctly)  System Exterior Lights (operates correctly) Brake Light Assembly (free of cracks, excessive moisture; illuminates correctly) Turn Signal Lever (illuminates turn signals correctly) Interior Lights (operates correctly) Hazard Light Button/Switch (illuminates hazard lights correctly) Headlights Assembly (free of cracks, excessive moisture; illuminates correctly) Rear License Plate Light Assembly (free of cracks, excessive moisture; illuminates correctly) Interior Dome Light Assemblies (illuminates dome lights correctly) High/Low Beam Indicator (illuminates correctly)

Meets Standards placed

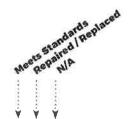

### MECHANICAL INSPECTION CONT

Suspens	ion System	Electrica	I System
	Ball Joints (free of tears, leaks, looseness,	$\square$	Ignition System (idles and starts
	abnormal sounds)		normally)
	Springs/Leaf Springs/Torsion Bars (no cracks,	$\square$	Alternator/Regulator (appropriate charging voltage;
	excessive noises; appropriate ride height)		no visible abnormal wear and tear)
	Sway Bar/Links (free of tears, bends, leaks,	$\square$	Starter Operation (engages normally)
	looseness, abnormal sounds)		Battery Condition (cases/terminals/leads/wires/
	Control Arms/Bushings (free of tears, bends, leaks,		hardware intact; passes load test)
	looseness, abnormal sounds)		Hardware littact, passes load test)
$\bowtie$	Rear Shocks/Struts (free of leaks, bends, worn	Body / Ini	in along
	or loose components)		
	Front Shocks/Struts (free of leaks, bends, worn		Sun Visors (secured and operates correctly)
	or loose components)		Rear View Mirror (secured and operates correctly)
	or roose components)		Hood Latch/Release (operates correctly)
Tires and	Whoole		Trunk or Tailgate (locks and latches operate, secure,
			and seal correctly)
	Tire Condition (minimum depth 4/32", no tears, leaks,		Fuel Door Latch/Release (operational)
	plugs, excessive cracking, bulges)		Side Windows (operate and seal correctly)
	Wheels (free of excessive vibration, bends, cracks)		Side Doors (locks and latches operate, secure, and
	Wheel Well Moldings (secured, no excessive damage)		seal correctly)
Desiles Co.			Side Door Hinges (operates smoothly, free
Brake Sy:			of binding/bending)
	Parking Brake Operation (fully functional; free of	$\boxtimes$ $\square$ $\square$	Seat Operation (all seat adjustments work correctly;
	leaks, excessive wear on lines, cables, and friction		seats secure)
<b>.</b>	material)		Headrests (present and operational)
	Parking Brake Indicator Light (illuminates when		Audio/Entertainment System (sound and screen
= -	parking brake is in use)		operational)
	Master Cylinder/Booster/Power Brake Assist (road	$\boxtimes$ $\square$ $\square$	Speakers (no cracking, tears, distortion)
	test shows vehicle stops when braking)	lacktriangledown	Clock (clock set to current time)
	Pedal Brake Operation (free of play, travel is normal)	$\square$	Speedometer and Odometer (proper operation,
	Brake Lines/Hoses/Fittings (free of leaks, swelling,		readout visible, no evidence of tampering)
	cracking)	$\square$	12V/AUX / USB Outlets (operational)
	Brake Pads/Shoes/Hardware (shoes 2/32" min.	$\boxtimes$ $\square$ $\square$	Key/Remote (operational)
	thickness; pads 4/32" min. thickness; free of cracks,		Steering Wheel Adjustments (operational)
	excessive tapering; clean and lubricated)	$\square$	Glove Compartment (opens freely, latches securely)
$\boxtimes$ $\square$ $\square$	Brake Rotors/Drums (meets OEM min. thickness/	$\square$	Center Console/Cup Holder/Storage (operates
	max. diameter; no excessive vibration, free of		correctly)
	excessive rust, grooves, pits, hot spots)		Exterior Mirrors (adjusts properly, unobstructed view)
	Brake Calipers/Wheel Cylinders (free of leaks and		Tag Bracket/Mounting (secures tag, front/rear as
	tears, free piston movement, no excessive drag		applicable)
	or pull, vehicle stops when braking)		Windshield Wiper Functionality (proper operation,
	Anti-Lock Brake System (ABS) (warning indicator		speeds, delays)
	light not illuminated; system does not engage in	$\square$ $\square$	Windshield Wiper Blades (cleans windshield, no
	normal driving conditions)	لسا لــا لنك	excessive streaking)
	<i>3</i> ,	$\square$	Windshield Washer (sprays correctly)
			Horn (operational)
			Interior Air Vent (fins intact, properly adjusts)
		لحا لحا لك	miceron All York (into intact, properly aujusto)

# MECHANICAL INSPECTION CONT

Seatbelts	and Airbags	OTHER	
	Seatbelts (free of cuts/tears, belt retracts, buckle		Cruise Control (operational)
	locks correctly, indicator light illuminates correctly)		Sunroof (no leaks, no binding while operating)
$\boxtimes$ $\square$ $\square$	Airbags (no warning indicator lights illuminated,		Convertible Top (no leaks, no tears, operational)
	airbag covers free of cuts and tears)		Power Door Locks (lock/unlocks applicable doors)
			Power Windows (window regulator/motor/switch
			operates correctly)
			Power Mirrors (mirror motor/switch
		-	operates correctly)
		$\square$ $\square$	Power Seats (seat motor/switch operates correctly)
		$\boxtimes$ $\square$ $\square$	Heated/Cooled Seats (switch engages heat
			or AC seats)
			Parking Sensors (operational)
			Rear View Camera (operational)
			Navigation (operational)
			Roof Rack (secured on roof, no rattles present)
			DVD (operates correctly)
			Rear Sunshade (extends and retracts without binding)
			Remote Start (operates with key fob/remote)
			Bluetooth (entertainment/steering wheel controls functioning)
			Memory Seats (able to set preferences)
			Power Sliding Doors (opens and closes correctly)

Certain vehicles may have unrepaired safety recalls. Please check www.nhtsa.gov/recalls to learn if this vehicle has an unrepaired safety recall.
